

# M133K, 13.3-inch Ultra Rugged Tablet

An Ultra Rugged Tablet that Can Survive Any Environment and Get Real Work Done

M133K is the next generation of the 13.3-inch rugged tablet with robust set of features designed to withstand industrial use while providing high tech solutions that increase productivity, improve safety, and reduce operational costs. The processing power comes from Intel's 7th generation Core i5-7200U Kaby Lake processor and the tablet features a brilliant, wide viewing angle with direct optical bonding, projected capacitive touch screen, which is outdoor viewable and offers a 1920 x 1080 resolution display. Equipped with a built-in kickstand, the M133K is a powerful workstation with reliable performance in a mobile and ultra-rugged design.

## Highlights

- Intel® Core™ i5-7200U Kaby Lake processor
- 13.3" 1920 x 1080 wide viewing angle LED Panel
- Magnesium alloy housing with all-around elastomeric rubber
- Built-in kickstand
- Optional hot-swappable user-replaceable battery
- IP65 waterproof and dustproof
- With optical bonding to increase optical clarity and readability
- Optional 600 nits high brightness panel for sunlight readability
